

## PROJECT PROFILE

**PROJECT:** Property service: refurbishment of a terrace  
**LOCATION:** Marlbor– Slovenia

### THE PROBLEM

This picture has been taken in Slovenia.

The problem was that the paving tiles of this residential terrace were old and largely damaged.

The paving tiles needed to be repaired and protected. Thortex was asked to provide a solution.

### THE SOLUTION

After inspection, the following turnkey solution was offered by Thortex to the customer.

In order to repair the damaged tiles, Floor Tech SFU Primer mixed with sand was applied.

To protect the external terrace from eventual future damage, Floor-Tech S.F.U was used.

Two coatings of Floor-Tech PU were then utilize for abrasion and UV resistance.

The customer was highly satisfied by the result.
